Many blessings upon you
and your family as you
enter high school and
beyond. We will miss you!

Did You Know... You breathe because every dingle cell in your body needs a continuous supply of oxygen to burn glucose. Waste carbon dioxide from your cells is returned by your blood to your lungs, to be breathed out. On average, you breathe in about 15 times a minute. If you live to be the age of 80, you will have taken well over 600 million breaths.

Word For the Week

Fine Arts Sunday Enjoyed By All

SJS was transformed into a center for the Arts on Sunday as over 100 visitors enjoyed display of artwork, a drama production, poetry and essay readings, Spanish cooking and more. The students beamed as they showed off their creations for their family and friends, and teachers proudly displayed the creations by their protégés.

May Procession Tuesday, May 19th

St. Joseph School students honored our Blessed Mother Mary on Wednesday during the traditional May Procession. Second grade students processed in wearing their First Communion attire followed by the third and fourth graders who carried flowers and candles. The 3rd and 4th graders formed a Live Rosary, with lit candles representing the rosary beads. Classroom representatives carried flowers and laid them on the altar by the statue of Mother Mary while Barbara Carter, Donna Snider, Jill Vittitow and Pam Zarantonello sang the Hail Mary Prayer. Music included Gabby Manion singing *Ave Maria*, and second graders singing *We Belong to You*.

Remember in Your Prayers...

For St. Joseph Parish students who recently celebrated the sacraments of First Communion and Confirmation...

For families coping with stress within their family due to illness or disappointment...

For Hillary Shields who is in the hospital and recovering from a car accident...

For students and families looking forward to graduation from St. Joseph, high school and college...

For our own intentions...
